

1. General information

This application form is only to be used for applications that do not require a public process and that the Commission will deal with using the administrative approach. You may consult Broadcasting Information Bulletin CRTC 2010-960 for additional information. These applications do not fall under the Rules of Procedure with the exception of the confidentiality rules. The following applications may be subject to another process if they raise concerns.

Applicants that have any questions related to this application form may contact a Commission specialist at 1-866-781-1911.

Important notice: The Commission will return the application if it has not been duly completed. The onus will be on the applicant to submit a complete application that provides all of the relevant information, identifies all regulatory issues raised in the application and provides supporting documentation.

2. Application

The Commission will return the application if it has not been duly completed. The onus will be on the applicant to submit a complete application that provides all of the relevant information, identifies all regulatory issues raised in the application and provides supporting documentation.

2.1 Description of application

You do not have to fill sections A to E.

f) Please provide a description of your application:

Application by Vernon Community Radio Society for an extension of the deadline to implement the service licensed in CRTC Decision 2020-0322 for a period of one year, through September 2, 2023.

g) Provide the rationale for the proposed amendment(s) including a clear and concise statement of the relevant facts as well as the grounds of the application:

The Vernon Community Radio Society was thrilled when the CRTC issued Decision 2020-0322 and had every expectation of completing our fundraising, equipment installation, and programming implementation within the two-years allowed in the decision. Although COVID-19 became an issue in January 2020 and a second Beta wave began in late July, about 6-weeks before the Commission's decision, we seriously under-estimated both the severity and duration of the pandemic's impact. Fundraising became much more difficult, and many volunteers in our Society chose to seclude at home. In due course, just as we felt we had overcome pandemic-related obstacles, British Columbia and our North Okanagan service area in particular were hard hit with climate related phenomenon including an unprecedented "heat dome" and devastating wildfires. These events unfavourably impacted our progress. We have made progress, despite the obstacles, and have the foundation of all studio and program-originating facilities in place. We have a robust core of about 50 Society members and volunteers, and we have developed a number of exciting new programs that are ready to air. Our Board of Directors have given us the green light to launch a streaming service, which is in the final stages of set-up. Our streaming service will begin before the

end of August. We have adequate financial resources to continue the streaming service while we complete our Capital fundraising campaign to purchase our transmitter and antenna.

h) Provide the nature of the decision sought:

We respectfully request an extension of 12-months to implement Decision 2020-0233.

i) Please provide the CRTC decision number of the decision that:

- 1. Imposed the deadline for which you are asking an extension; or**
- 2. Most recently renewed the licence of the station/service (or issued the licence if in the first term)**

Decision 2020-0233.

3. Request for documents to be designated as confidential

Sections 30 to 34 of the Implementation of new Rules of Practice and Procedure, Broadcasting and Telecom Regulatory Policy CRTC 2010-958, set out a process by which parties to Commission proceedings may file information on the record of a public proceeding in confidence.

A party filing information can "designate" it as confidential at the time it is filed with the Commission (section 31) if it falls into one of the following categories:

1. Information that is a trade secret;
2. Financial, commercial, scientific or technical information that is confidential and that is treated consistently in a confidential manner by the person who submitted it; or
3. Information the disclosure of which could reasonably be expected
 - i. To result in material financial loss or gain to any person;
 - ii. To prejudice the competitive position of any person; or
 - iii. To affect contractual or other negotiations of any person.

At the time that the party files the information it designates as confidential, it must provide an abridged version of the document along with an explanation of how the information falls into a category of information listed in section 31. The party must provide a detailed rationale to explain why the disclosure of the information is not in the public interest (section 32(1)).

The confidential version of the document must be filed separately and must be marked "CONFIDENTIAL" on each page. If the document is filed electronically, each file containing confidential information must include "confidential" in the file name.

The abridged version of the document and the reasons for the designation of information as confidential will be placed on the public record of the proceeding.

Please consult the Procedures for filing confidential information and requesting its disclosure in Commission proceedings, Broadcasting and Telecom Information Bulletin CRTC 2010-961 for complete process for filing confidential information.

Are you requesting for some information to be designated as confidential?

No

4. Documents to be appended to the application and naming convention of electronic documents

Documents should be submitted in an accessible format (Broadcasting and Telecom Information Bulletin CRTC 2015-242)

The following documents should be submitted as separate electronic documents using the naming convention specified below. The document number (Doc#) indicates the ascending order in which the documents should appear on the public file.

The document name should not exceed 100 characters or include any special characters (% , \$, & , / , () , # , etc).

The document should not be submitted in .xhtml format.

Additional documents (if necessary)

All additional documents must use the following naming convention: Doc# - "Specify name of document" .

Attached file(s)

- No files attached

Confidential document(s)

All confidential documents must use the following naming convention: NOT WEB - Doc # - CONFDOC - "brief description of the document"

You do not have to submit this document.

Abridged version of each confidential document

All abridged confidential documents must use the following naming convention: Doc # - ABRIDGED VERSION - "same description of document for which confidentiality is requested"

You do not have to submit this document.
