

# Power the Tower

## Help us get ON AIR!

**The Vernon Community Radio Society (a registered non-profit society) asks for your help to get our new community radio station, 97.9 Valley FM, ON AIR by September 1, 2024.**

**With your help, we will purchase and install the equipment for our radio tower to complete the dream of having a third, non-commercial, radio option available on everyone's FM radio dial.**

**97.9 Valley FM, currently streaming online at [www.valleyfm.ca](http://www.valleyfm.ca), is a community radio station serving the city of Vernon with locally produced programming not available anywhere else.**

**Vernon arts, sports, news, talk, interviews, music, events, and more are part of what makes our community radio station both unique and needed.**

**We are all connected by radio, and 97.9 Valley FM is that place where all are welcome. We are an inclusive, diverse, and community-minded group, draw together by a love of radio and our city.**

**Let's POWER THE TOWER and start broadcasting 97.9 Valley FM ON on your radio dial across the greater Vernon area!"**
