

Become a Volunteer
with Vernon's Newest Radio Station!

Join us on our path to become the best community radio station in Canada!

Radio Show Host Team

Do you want to have your own show on 97.9 Valley FM?

We are accepting applications for radio show hosts! Do you have an idea for show that you will host? Let us know!

Your show will be broadcast online and ON AIR at 97.9 Valley FM.

Your show, at first, will be produced either in your own home studio or in our studio at the station; the finished shows will then be uploaded to our Program Manager and then featured online and ON AIR at a certain scheduled time during the day and week.

We have plans for live show hosts soon.

- This is an ongoing position.
- Commitment
- Long term

We are just at the beginning of our journey toward becoming the best community radio station in Canada as we bring 97.9 Valley FM ON AIR this fall. We need many volunteer members of our Radio Show Host Team.

We have limited studio resources at present, but we can help you produce your show as we continue to get more resources and people who support and work in our production studio.

Your show must be approved before it gets into our programming. All shows must be rated G.

We ask that once starting a radio show that you continue to upload shows to our programmer at least one new show per week. Radio shows can be any length but typically are 1/2 or 1 hour in length.

We will help you promote your show, but we also encourage you to promote your show through your own channels.

Your show must be locally focused and directly reference no other broadcasting entity other than 97.9 Valley FM. For example, you cannot say, "You are listening to 97.9 Valley FM and on Spotify to (my show)."
